

First name/Surname: Oliver Martinić
Telephone: +385992166776
E-mail: oliver.martinic@studenti.unipd.it
Nationality: Croatian
Date of birth: 13/12/1991
Place of birth: Split, Croatia

Education:

- Ph. D. student in Animal and Food Science (2022-)
- Master student in Animal Breeding and Genetics (2013-2015)
- Bachelor student in Animal Science (2010-2013)

Research areas:

- Environmental impacts of livestock production

Brief description of Ph.D project:

The research project aims at highlighting various management interventions that may decrease the environmental impact of intensive beef production in the Veneto region without affecting animal production results. A multidisciplinary approach will be used, which also includes the impact on animal health and welfare. The project will focus on the identification of critical spots in the current situation in the production system and the effects of management interventions on decreasing the environmental impact.

Supervisor:

Professor Flaviana Gottardo
