Curriculum Vitae

Family Name: Patel

Given Name: Nageshvar

Nationality: Indian

Date of birth: 04/03/1983

E-mail: nageshvar.patel@studenti.unipd.it

Education:

PhD student in Animal and Food Science

Research areas:

- Near infrared spectroscopy
- Chemometrics
- Machine learning
- Meat
- Cheeses

PhD project:

My research interest is application of infrared spectroscopy, Chemometrics and machine learning in foods which are derive from animal origin such as milk, cheese and meat. My objective is to do develop different models for measuring the food quality and its production history, thereby controlling the food production parameters and eventually helping in production of safe and better food for consumption.

Supervisor:

Prof. Giovanni Bittante
