DI PADOVA

Curriculum Vitae

Family name: Savoia

Given name: Simone

Nationality: Italy

Date of birth: 05/05/1985

E-mail: simone.savoia@studenti.unipd.it

Education:

- PhD student in Animal and Food Science 2015 -
- Master degree in Livestock Science and Technology 2013 - 2015
- Bachelor degree in Livestock Science 2004 - 2009

Research areas:

- Meat quality
- Visual and Near-Infrared Spectroscopy
- Genomic selection

PhD project:

My PhD is carried out within the project “QualiPiem” - Innovative tools for selection of meat quality in Piemontese breed. The “QualiPiem” project is aimed at exploring the possibility of selecting meat quality traits in Piemontese cattle, with a particular concern to application and to cognitive aspects. The study provides the development of innovative tools for phenotypes detection on large scale at operational level based on visual and near-infrared spectroscopy (Vis-NIRS), the understanding of the genetic basis of meat quality traits and the implementation of genomic tools for selection.

Supervisor:

Giovanni Bittante
