

First name/Surname: Silvia Sabbadin
Telephone: +39 3468405269
E-mail: silvia.sabbadin.4@studenti.unipd.it
Nationality: Italian
Date of birth: 04/12/1999
Place of birth: Castelfranco Veneto, Treviso

Education:

- PhD student in Animal and Food Science (2024 -).
- Master student in Biotechnologies for Food Science at the University of Padova (2021-2023).
- Bachelor student in Biology at the University of Padova (2018-2021).

Research areas:

- Beef cattle, animal welfare, beef quality

Brief description of Ph.D project:

The beef cattle sector is undergoing a phase of profound transformation, marked by an acceleration of changes that will shape its future in the coming years. This evolution is driven by an increasing focus on innovation and sustainability in husbandry systems, improvements in animal welfare, the optimization of resources' use, and the quality of the final product meat. These dynamics are redefining practices within the sector, addressing new consumer demands and the challenges related to sustainability and competitiveness in the global market. The Ph.D. project will explore these themes, focusing on husbandry and welfare practices to enhance the sustainability of Italian beef sector, working closely with the beef industry.

Supervisor: Professor Massimo De Marchi.
